

The Federal Communications Commission  
445 12th Street, SW  
Washington, DC 20554

Dear The Federal Communications Commission,

Congratulations on your appointment to Chair the FCC. I am not the political type and I am not even sure I know all the fact in this issue. What I do know is that I support flat tax in the sense that tax should be a flat percentage of earning/usage. If I use/make more, then I pay more taxes. There should be no deductions or loopholes. If everyone paid the same percent of taxes, then I tink it would prevent people from coming up with ways to get out of paying their share of taxes.

Under the flat fee or numbers-based plan you are considering, people like me who make few long distance calls would pay the same as people or businesses that make many calls. I believe it would be unfair to charge low-volume and residential customers the same fees as high-volume residential or business customers.

I urge you to keep the USF fair. Thank you, and best of luck in your new position.

cc: Marlene Dortch, Secretary

Sincerely,
